

Design Services

Prepare Plans, Specifications, and other Contract Documents suitable for Bidding and Construction. Conduct Product Evaluation, Comparative Cost Estimates, Recommendation of Materials, and Application Procedures.

Warranty Claims Assistance

Assisting building owners as well as manufacturers to thoroughly investigate roofs that have been experiencing persistent problems, to determine the issues that caused the warranty claim.

Document Review and Bid Leveling

Reviewing your roof project documents to ensure that they meet industry and manufacturer's standards. When it's time to put your project out for bids, BEM can assist with distribution of the documents as well as development of an invited bidders list. Also, confirming that your bidders are all pricing the same scope of services.
